

## Adobe Contribute Resource Information

Most likely you are about to enter into a new area where you will be maintaining your Web site with the Adobe Contribute product. Contribute is primarily used by non-programmers as it employs an intuitive WYSIWYG (What You See Is What You Get) development environment which allows those with little or no programming experience to keep Web sites updated with content.

Several resources are available to learn Contribute. We recommend that you look over the following links and visit some of the online tutorials before your training with Byte Technology. Our intent is to teach you to edit and maintain your own Web site using Contribute. We encourage you to invest the time in these resources to fully understand how to use the Contribute software.

### Adobe's Contribute Design Center

<http://www.adobe.com/cfusion/designcenter/search.cfm?product=Contribute&go=Go>

### Adobe Video Training

Adobe also has a few videos available at no cost on their site (as part of the above Design Center).

Just select the **Contribute product videos**: [http://www.adobe.com/designcenter/video\\_workshop](http://www.adobe.com/designcenter/video_workshop)

### Lynda.com Video Tutorials

Lynda.com is a fantastic research point if you want to learn anything! Lynda.com offers very insightful training for Contribute available online or on CD. It is often worth the investment of having the training CD on hand for you and for others who may need to be brought up to speed at some point.

**Contribute Training CD at approximately \$100...** <http://www.lynda.com/store/ProductInfo.aspx?productid=595>

**Contribute Training Online at only \$25 a month...** <http://movielibrary.lynda.com/html/modPage.asp?ID=417>

### Byte Technology

At Byte Technology we are pleased to offer our continued support for you in maintaining your Web site. Feel free to contact our team at any time with questions or concerns.
